Re: Visible Emission Training “Smoke School”

Dear Past and Future Participants:

We are happy to announce the KCAQ will be hosting smoke school this spring.

The Kansas City Air Quality Program’s Spring 2016 Visible Emission Certification Training has been scheduled for April 13th and 14th this year, with April 15th as the rain date.

Practice opacity readings will be conducted on both days from 9:00 am to 4:30 pm at the Birmingham Treatment Plant at 10801 NE 28 St., Kansas City, MO 64161. Enclosed is a map of the testing location. Please call the Air Quality Program if you will not be able to attend the first day, but wish to attend the second.

All attendees should complete several tests after their passing test. This will help avoid false passing and will provide everyone with more practice.

Please fill out one application form for every person that will be attending (the form can be duplicated as necessary). **The registration fee is \$150 per person and can be made payable to the City Treasurer of Kansas City, Missouri.** Send check and application to the Air Quality Program. The fee is non-refundable, although the training will be rescheduled during inclement weather. If the weather is questionable the day of the training, please call the office to see if the training is postponed.

If you have any questions about smoke school, or any other Air Quality programs, please call us at (816) 513-6314 or visit the registration page at <http://kcmo.gov/health/smoke-school/>

Due to large Volume of applicants, please indicate on the enclosed registration form, which day(s) you are planning to attend.
